PROBLEM STATEMENT

THE GAP IN THE MARKET

Companies and event organizers face challenges in accessing:

No video face recognition:

Users struggled to retrieve videos using face recognition, a capability limited to images until now. Our AI product fills this gap, enabling fast and precise face recognition in videos, transforming content accessibility and management.

Time consuming:

Time-consuming manual processes for sifting through images and videos.

High costs:

High costs and complexity of developing proprietary AI solutions for face recognition.

Inconsistent ongoing support:

Inconsistent support disrupts operations and hinders business growth.

Limited availability of technical expertise:

Technical expertise is limited in the field of AI, which creates variety of issues for the clients.

SOLUTION OVERVIEW

Introducing Photobooth: The Ultimate Rebrandable SaaS Solution. Our AI-powered platform delivers:

White-label customization

Seamlessly integrate your branding—logos, themes, and domain—offering a personalized experience.

Precision & Speed

Face recognition with 99.7% accuracy in just 0.05 seconds, for both images and videos.

Fetching time	1-5 seconds per query	0.05 seconds
Download Option	Single Download	Seperate, Reel, Collage
Customised Branding	⊗	✅

MARKET OPPORTUNITIES

Unlock revenue potential across B2B and B2C markets

B2C Revenue Opportunities

Massive Customer Base:

Every smartphone user with a media gallery is a potential customer.

Scalable Monetization:

Benefit from subscription renewals or pay-per-use models for seamless face recognition, video tagging, and media editing.

Premium Features:

Drive revenue with value-added tools like AI-powered collages, reels, and advanced photo/video enhancements.

B2B Revenue Opportunities

Companies charge clients **₹10-20K/year**, offering less advanced and less customizable services.
We provide opportunities to unlock high revenue potential with our advanced and superior AI services including white-label solutions, multiple use cases, high scalability, etc.
